About Maxigiene Australia

Maxigiene Australia (Maxigiene) is committed to offering the best performing range of commercial & industrial products on the market. From sealers & paints to hospital grade Covid protocol cleaning and sanitising products to industrial cleaners and protective coatings.

Our unique product range is setting the benchmark in high standards of delivery and outperformance.

If Maxigiene does not have the product you are looking for on our list of standard products; our R&D team will work closely with you to create a bespoke product to suit your needs.

Our Philosophy

Our philosophy is simple....Supply & Deliver on our promises!

Through our best product and delivery promise, we have become preferred suppliers to some of the largest companies in Australia. Our successful rollout and product implementations rely on our experienced team of passionate and dedicated professionals who are committed to our customers ever changing needs.

We understand that in many cases our products define our customers' businesses and that we cross over many different scopes of work. It is for this reason that we monitor our deliverables in order to ensure we assist our customers to mitigate risks; whether that be extending the lifecycle of their assets or the protection of their assets.

Why Maxigiene

Maxigiene is one of Australia's foremost leaders in the wholesale distribution of a range of products that specialise in improving & protecting your assets, whether they be hardware assets or human assets.

Maxigiene is proud to be able to offer our customers the 'best of the best' when it comes to product performance, standards and certifications. We pride ourselves on delivering excellence in products and customer service every time.

Whether our customers are Government, NGOs or private enterprises, large scale multi-site or individual businesses, we continually seek to optimise the support and expertise we provide. Through collaboration, we always discover and deliver the most cost effective solutions to address your business needs.

Company Deliverables

- World-class products at wholesale prices
- Best practice customer service to business enterprise
- Build long term customer / supplier relationships
- Cost & time effective delivery Australia-wide

Covid-19 & Maxigiene

Maxigiene - your partners in combatting Covid-19 in your business

Protecting yourself, your staff, customers, contractors & suppliers has never been more important than now, subsequent to Covid-19 and the fallout effects on businesses and individuals. It is for this reason that Maxigiene has partnered with the best manufacturer and science laboratory - Aeris Environmental, to deliver our customers the only commercial, hospital grade product range that is TGA, USEPA & HACCP approved and licensed. Maxigiene has products that protect your air-flow, your surfaces and your personal hygiene. **A TOTAL COVID PROTOCOL.**

Covid-19 Product Range

WHEN ONLY THE BEST WILL DO

It is important to note that there are many products that have exploded onto the market that claim to kill Covid-19. Firstly, it is really easy to make any statement on a marketing brochure, based on internal tests. So, as a customer, the most important thing to ask of any supplier is for formal verification of their statements - in the form of certification.

For instance, if a company is claiming it is food safe - ask for their HACCP certification, if it is claiming it has a residual 30 day Covid-19 killing ability - ask for their TGA license where it should be listed.

Maxigiene is proud our Covid product range has the only products on the market that have a residual bacteria and virucidal killing ability listed on our TGA licence. Our products are also HACCP & USEPA approved and most importantly, have passed 'dirty conditions' testing. Our products kill Covid-19 in 60 seconds, faster than all of our competitors. Our product cleans, disinfects & protects in one application. **No pre-deep clean is required.**

Our Team

MEET OUR DEDICATED TEAM

Maxigiene Australia was founded by CEO Charissa Harrison who has a long history of establishing and successfully managing businesses across a diverse range of industries. With a strong belief in the importance of an energised internal culture, Charissa is a hands-on CEO who has empowered her team to deliver customised solutions to all their customers. The Maxigiene team consists of dedicated Associate Directors, Account Managers, Customer Service Consultants and Administration all here to help our customers enjoy a great experience.
